

For Life's Little Adventures

We all know that toddlers love exploring and who can blame them? It is how they learn about life. The LittleLife Toddler Daysack lets them feel free whilst giving parents control over safety. The Daysacks come in a range of fun colours and designs for you and your child to choose from.

Toddler Daysack

All Toddler Daysacks have a simple but extremely useful Parent's Safety Strap. It is removable and will keep your toddler close to you while you're out and about. This strap has passed all safety standards as a "Rein" so you can rest assured that the attachment is safe.
